EXPERIENCE

APPRENTICESHIP AT TRANSFERTPRO

- Tech lead on the Tsend frontend rebuild: from .NET Razor/Vue to Next.js + shadcn/ui, Turbo monorepo
- Full dockerisation: a single image serving both the cloud and on-premise customers
- CI/CD pipeline: production releases cut from 45 min down to 3 min (15× faster)
- Full stack development on a file-transfer SaaS certified CSPN by the French ANSSI

TRANSFERTPRO
VALENCE

2023 - 2026

PERSONAL PROJECTS & SELF-HOSTING

- Linux VPS managed with Dokploy: I deploy, host and monitor my own services
- Self-hosted Odoo deployed and configured to run a small business
- Real-time multiplayer game "Guess Who?": WebSockets and shared state (ESGI project)

PERSONAL
PROJECTS

2024 - PRESENT

INTERNSHIP AT WALLIX

- Immersion at a European leader in cybersecurity (privileged access management)
- Built a customisable CSS theme
- Developed a React application for log visualisation

WALLIX
LYON

2022 - 2 MONTHS

EQUIPMENT BOOKING PLATFORM

- Booking website for the audiovisual equipment of my university department
- Designed a secured API and its database
- Web application to book and manage time slots
